

SeaSkill – Ice Navigation

Certification of ice navigation training programmes

Growth in Arctic operations means the maritime industry needs more seafarers fit for operating in this demanding region.

Purpose

To ensure training programmes adequately prepare mariners for today's challenges of navigating safely and responsibly in ice-covered waters.

Features

- DNV verifies that training is developed, structured and delivered to a high pedagogical standard.
- DNV verifies the course content meets the DNV best-practice standard of competence for ice navigation.

- DNV certifies that simulation systems achieve an appropriate level of physical and behavioural realism to adequately support learning objectives.

Benefits

- Certification gives your customers assurance that your training is aligned with industry needs and meets the high quality standards of a globally trusted third party.
- Certification strengthens your market recognition and reputation.
